Recommendations

1. Do not use refinished surface for 24 hours
2. The new surface will remain tender for about 10 days
3. Tub and tile must be caulked after 24 hour period
4. Never use abrasive cleaners
5. Never use abrasive cleaning pads
6. Faucets must be maintained at all times (No drips or water settling in tub bottom)
7. Do not leave soap, hand sanitizer, shampoo or shaving cream bottles on refinished surface
8. Never let dyes, ink, drain opening solution, oven cleaner, or any other chemicals sit on bath-tub

Cleaning instructions

1. Use only non-abrasive liquid cleaners on your refinished surface
2. Do not use any product containing bleach or chlorine
3. For the best results, spray surface with mild cleaner and let penetrate for 3-5 minutes, and use non-scratching cleaning pad to clean surface
4. Extend the life of your refinished surface with the use of a "GEL GLOSS" polish (available at most super markets) or any polymer based polish every 6 months
